Hollow Column Jet

Specification:

Construction shall be cast bronze, extruded machined brass, copper and stainless steel. Complete with integral swivel adjustment.

Options:

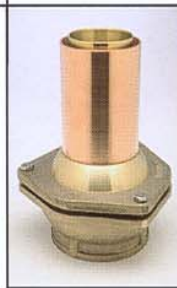

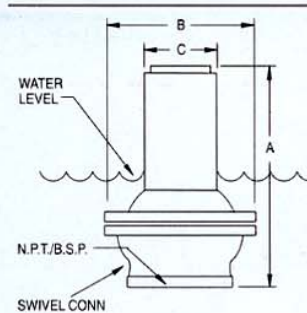

(Add suffix)
Q - chrome plated

Note:

- (for optimum effect)
1. Requires non-turbulent water supply.
 2. Requires fine screening at pump (see performance chart).
 3. Use shaded chart section.

Function

A hollow column of clear water that appears to be an overflowing glass tube. Cresting water creates minimum splash. Spectacular when illuminated. **Not water level dependent.**
