NMC series

Tulip Jet

Function

A clear, heavy-duty, sheet of pulsating water in a mushroom-like form. When operated in a full sheet pattern, there is very little sound or splash. Ideal for both serene and windy locations. Effective as a cooling and/or evaporative spray. **Not water level dependent.**

Specification:

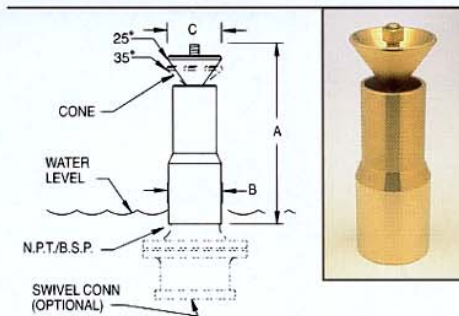

Construction shall be machined cast bronze and brass with DEFO adjustable top cone.

Options:

- (Add suffix)
- Q - chrome plated
- S - DEFO swivel connection (see ASL/ASU series)

Note:

- (for optimum effect)
- Bottom of DEFO nozzle must be installed at water level.
- Adjustable cone available in 20°, 30°, 40° and 45° on request.
- Water supply must be non-turbulent.
- Use shaded chart section.
